# fiberstone

The fiberstone pots of Pottery Pots consist of 58% finely crushed stones and the remaining part is glass fiber. Stone is of course a hard product, what makes the pots really firm and high of quality. Therefore, fiberstone planters, flower pots and pots last a long time. Due to the glass fiber, the pots are lightweight and easy to move. That, in combination with the fact that fiberstone is easy to maintain, makes the pots truly user-friendly.

Additionally, fiberstone can survive all kinds of weather conditions. Frost, rain or sun, fiberstone can handle it. Fiberstone planters look good in every environment.

# fiberclay

Fiberclay is a combination of clay and glass fiber and is therefore called clayfibre. A fiberclay pot often has a similar appearance to a pot made of earthenware or clay, but is lighter thanks to the addition of fiberglass. Clayfibre flower pots are also extremely resistant to moisture, frost and sun, and last for many years.

Fiberclay can be compared to ficonstone, with the difference that sand and crushed stone are also added.

58 Rough collection

## handmade

All of our pottery is made by hand. However, it's the oyster collection that truly captivates with its one-of-a-kind appearance. The colors of the pots are painted on by hand in different layers for optimal depth and richness. The image above captures the first layer being applied. What a difference compared to the end result!

# bohemian

Rich in natural charm and craftsmanship, these planters capture the essence of bohemian aesthetics. They are made with an unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Within the bohemian collection, you can choose between two different looks, each with a different material on the outside that is ecologically responsible: bamboo and straw grass.

Patt M (T3026-22-GRS) and Patt XL (T3026-41-GRS), Straw Grass

## from ancient art to modern gardens

Roman pots, Roman pottery or an old Greek vase: the old influences are often seen in gardens these days. The architecture, with its majestic columns and harmonious proportions, is still a source of inspiration for contemporary designs. In the garden trends we see the Greek aesthetic is making its return.

# treasure

Inspired by the timeless beauty of ancient Egypt, this collection features classic planters characterized by elegant jug shapes and intricate rope details. These items add a touch of traditional charm to any indoor or outdoor space. Although they have the appearance of terracotta pots, they are actually made of a durable composite material called ficonstone, which consists of fiberglass, cement, and sand.

## icon index

**UV Resistant** - Able to withstand harsh sunlight, ensuring vibrant colors and longevity, even in the brightest of spaces.

**Frost Resistant** - Can endure cold temperatures, making them ideal for all-year-round outdoor use.

**Indoor** - Elevate your interior spaces with our planters, adding a touch of greenery to any room.

**Outdoor** - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.

**Conscious choice** - Premium quality planters provide longevity, making them a durable option for conscious buyers.

**Lightweight** - Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.

**2 year guarantee** - We stand by the quality of our products; that's why we offer a 2-year guarantee.

**5 year guarantee** - For unparalleled durability and confidence, our planters come with a 5-year guarantee.

**Plant waterproof** - While not suitable as vases, our planters are designed to be **plant** waterproof. Achieving 100% waterproofing with larger planters is challenging due to the handmade production process. For planters without the waterdrop icon, we recommend using plastic inserts when placed indoors.

## guarantee conditions

We stand behind the quality of our planters. To keep our guarantee promise, make sure to follow these conditions:

### Leveling requirement:

For outdoor use, it is important that the planter is placed on a level surface. Uneven ground may compromise the stability of the planter.

### Drainage holes:

Outdoor planters must be equipped with drainage holes. Proper drainage is essential to prevent waterlogged soil, root rot, and other issues that can impact the plants and planters.

### Pot feet:

Elevating the planter above the ground (when using outdoors) with pot feet is essential to help with drainage, safeguarding your plants and planters from potential water-related challenges.

### Non-movement policy:

Once the planter is filled with soil and plants, it should not be moved. Shifting a filled planter may lead to unintended damage.
